

## **Resources**

The list below are a number of resources presented on during the MetroLab 2018 Annual Summit.

1. Urban Institute's data tool [Debt in America](#) explores the geography of household debt at the national, state, and county level. [Their latest addition to the tool incorporates student loan debt](#)—with demographic information about the share of people with student loan debt, student loan debt in collections, median monthly loan payments, and more.
2. Urban Institute data feature—[Financial Health of Residents](#)—is a dashboard provides a unique snapshot of the economic well-being of residents in 60 cities across the country to tell the story of city financial health. Might be useful for city and county officials as well as community partners.

If you have additional items you'd like to include, please email [summit@metrolabnetwork.org](mailto:summit@metrolabnetwork.org).
